MEMORANDUM FOR: CIA Librarian

SUBJECT : OSR Comments on the CIA Library  
Handbook and Selection Policy

1. OSR has reviewed the CIA Library Handbook and the Selection Policy drafts and feels that they provide excellent guidance for the military research analyst in the use of the agency reference facilities.

2. Expansion of the section describing the Classified Reference Collection would enhance its usefulness. It is suggested that this section include the numbers and types so that it more closely parallels the other portions of the paper.
